

NIGERIAN BUTTERFLIES

a free electronic field guide
by OSKAR BRATTSTRÖM

WHAT IS IT AND WHO IS IT FOR?

Nigerian Butterflies is a new series of electronic field guides for your mobile phone, aimed at amateurs and experienced naturalists alike. It is developed and maintained by Dr. Oskar Brattström, a Swedish biologist that have studied Nigerian butterflies in the field for the past fifteen years.

HOW CAN I DOWNLOAD MY FREE COPY?

The guides are completely free and will be gradually published (starting in November 2020) as a growing set of standalone chapters describing different groups of butterflies. All chapters and updates will be available from: www.bicyclus.se

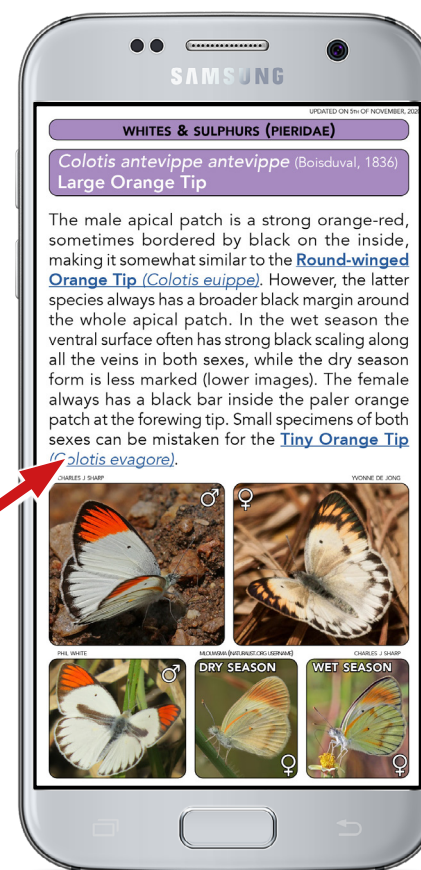

WHAT DO I NEED TO READ THE FILES?

To use the guides on your phone or tablet you first need to download the chapters you want and store on your phone or a suitable cloud service. You also need to have a compatible **EPUB** reader installed. For iPhone and iPad users your devices comes pre-installed with the '**Books**' app that allows all the functions of the guides. For Android

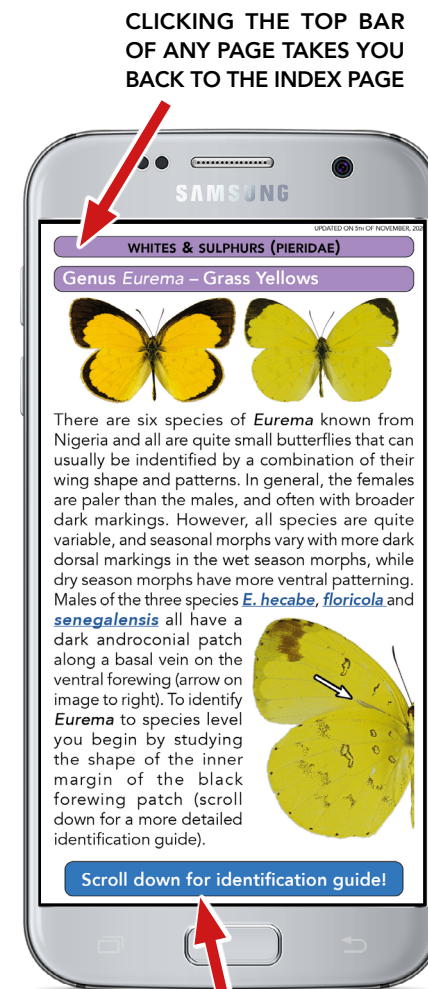

users, most apps will distort the layout, but there are free apps verified to work. Click the icon to the left to download the recommended Android EPUB app: **Reasily - EPUB Reader**

EACH CHAPTER HAS AN INDEX OF LINKS TAKING YOU QUICKLY TO EACH OF THE INCLUDED GENERA

ANY BLUE TEXT IS A CLICKABLE LINK TAKING YOU DIRECTLY TO A SIMILAR OR RELATED SPECIES

CLICKING THE TOP BAR OF ANY PAGE TAKES YOU BACK TO THE INDEX PAGE

SOME PAGES CONTAINS MORE DETAILED IDENTIFICATION KEYS THAT CAN BE REACHED BY SCROLLING DOWN THE PAGE
